Issues currently being worked by the SafeGulf Advisory Group (SGAG)

<p>PEC Accreditation</p>	<p>The SGAG curriculum committee has had several meetings with PEC to perform gap analysis of their Basic Orientation training syllabus and audit protocols to identify gaps and agree on measures to close gaps. A letter will go out to all of PEC's training provider's with SafeGulf endorsement once the gaps are closed. Gaps have been closed and PEC's training program is now accredited.</p>
<p>SafeGulf card (w/barcode)</p>	<p>SafeGulf IT subcommittee received and evaluated bids from 6 vendors to manage and maintain the database of SafeGulf compliant contractor employee training records. This system will be able to interface with both printed SafeGulf cards and bar code stickers on pictured ID cards. Accredited training providers and operators will be able to access this database. ISN was the success bidder.</p>
<p>Accredited Training Facilities</p>	<p>Associated Safety Councils Acadian Integrated Solutions - Maurice Chevron Texaco - Lafayette Dynamic Industries, Inc. - New Iberia Edison Chouest Offshore - Galliano Global Training & Environmental - Lafayette Grand Isle Shipyard - Galliano Hobco, Inc. - Houma J Schneider & Associates, Ltd. - Lafayette Occupational Safety Training - New Iberia Oceaneering - Morgan City Offshore Specialty Fabricators - Houma Safety and Training Consultants - Houma Safety and Training Consultants, LLC - Lafayette Sola Communications, LLC - Scott Technical Resource Services - Broussard TEST Facility - Nederland, TX WSI Total Safety - Scott Young Memorial Campus - Morgan City</p>
<p>Industry Groups</p>	<p>IADC and PEC Premier are accredited. SGAG is still communicating with OMSA to accredit their training program.</p>
